

**Algometer™**  
COMMANDER

The Commander Algometer easily measures pain pressure thresholds and tolerances reported by patients.

Algometry is ideal for evaluating fibromyalgia and trigger point tenderness. Features include fine resolution that identifies small yet clinically significant changes in pressure sensitivity.

- ▶ Identify trigger points
- ▶ Diagnose Fibromyalgia
- ▶ Quantify joint tenderness in arthritic conditions
- ▶ Objectify reports of pain and evaluate pain sensitivity
- ▶ Document effectiveness of treatment (long and short term)
