Dreaming of a bathroom  
like no other?

Then it's time  
to think differently.

Dare to go brighter  
and play with patterns,  
florals, light.

Choose taps that glitter like jewels,  
showers that drench,  
and a bath made for painting  
in shades that shout, "Look!"

Create something bold,  
beautiful and....

## QUALITY

*Carefully crafted with  
Cornish clay*

~

Each Heritage piece is its own work of art. Many of our suites are carefully crafted with Cornish china clay, or kaolin, which has been mined since 1746 and is regarded as among the best in the world. Kaolin has been used to supply the highest quality porcelain to the finest homes for centuries, and we use it to bring beautiful basins and WCs to your home.

## STORAGE

# *Stylish storage solutions*

~

Carefully planned storage is important in every bathroom. But when space is at a premium, it's essential.

Our thoughtfully designed vanity units offer the perfect solution. Available in wall-hung or freestanding styles and a range of on-trend, painted finishes, they're a stylish hideaway for fluffy towels, your favourite luxury toiletries, and other bathroom essentials. Plus, vanity units take up no more floor space than the basin, allowing them to fit neatly into any space - and we'll even deliver them fully assembled. It's all part of the Heritage experience.

## CLASSIC DESIGN

# *Timeless pieces for beautiful bathrooms*

~

Granley is one of our original bathroom suites. The epitome of period design, this suite's striking angles and delicate details take inspiration from the Edwardian era. But despite its historical influences, Granley is totally timeless; today it's still one of our very best sellers, bringing head-turning grandeur to bathrooms across the country.

And of course, as with all of our suites, Granley is a blank canvas. Style in contemporary monochrome, elegant pastel, or with opulent shades and a statement Heritage cast iron bath. The only limit is your own imagination – and, perhaps, your nerve.

## PERSONALISATION

*Be open-minded  
and creative*

~

With Heritage, the possibilities are endless. Choosing your favourite suite is just the start.

Mix and match furniture, bath panel and WC finishes to create your own unique style. Play with colour. Experiment with tiling, panelling, and wallpaper to make a feature backdrop to a Heritage vanity unit. And don't forget to think about the details; well-chosen textiles and carefully matched chrome across taps, showers and finishing touches can make a world of difference.

For a real standout look, put a stamp on your space by painting one of our hand-finished and pre-primed cast iron baths in your selected colour. We can even provide a choice of chrome or paintable cast iron feet. As far as we're concerned, when it comes to customisation there's only one rule: be bold. What's stopping you?

QUALITY

## *Style that lasts*

~

In our state-of-the-art testing laboratory, which is uniquely accredited to the United Kingdom Accreditation Service (UKAS) forensic standards, we use our obsessive attention to detail to make sure that every bathroom performs as brilliantly as it looks.

We rigorously test our products, guaranteeing you a bathroom that's both stylish and made to last. Our taps are just one example. Built to the toughest of standards, they easily withstand testing up to five times normal domestic water pressure. We also subject our showers to exacting testing procedures, putting them through the equivalent of 130 years of daily family use. Because at Heritage, we know you won't settle for anything but the best – so neither will we.

EXPRESS YOURSELF

## *Style it your way*

~

Inspired by Georgian styling, Claverton is soft, elegant, and understated. But most of all, it's versatile; set the basin on a pedestal, washstand, or furniture from our Caversham collection to design a look you love.

With a suite this flexible, you really can create any feel and any style. Against soft, pastel shades and delicately patterned floor tiles, it's sumptuous and feminine. But complemented by wooden flooring, dark tiles with contrast grouting and cool accessories, it becomes slick, stylish and masculine, perfect for a luxurious flat or boutique hotel bathroom. With Claverton, what will you create?

VERSATILITY

## *Designed for every space*

Heritage gives you the options and inspiration you need to design a space that fits your style perfectly. With our vast collections, every bathroom can be unique. Effortlessly elegant Dorchester, for example, offers 18 different basins in both rounded and square styles, so you can find something that suits you perfectly.

For a seriously sophisticated look, team Dorchester's period detailing with a Caversham vanity unit in Oyster, as shown here. With Dorchester's breadth of range and options to mix and match, you can create distinctive – yet consistent – looks across family bathrooms, en suites, and cloakrooms.

## SHOWERING

# *Wake up, refresh, and luxuriate*

~

Your shower is an essential part of your bathroom and your daily routine. So, get it just how you like it. Whether you're looking for a traditional exposed shower valve or a more modern, recessed model, you'll find a range of designs at Heritage. For a consistent look, our showers also have matching taps. Pair with flexible riser kits or one of our gorgeous, fixed heads for a luxurious showering experience. Wake up, refresh, and luxuriate - getting up in the morning just became a whole lot more appealing.

Style notes: Tiles – Similar at Topps Tiles.

## BEAUTIFUL BASINS

# *Basins for every bathroom*

~

Washstands. Vanity units. Small basins, tall basins, angular and rounded. We've thought of every option when it comes to our basins, considering designs and details for spaces in all shapes, sizes and styles.

Take Blenheim, for instance, a suite that juxtaposes period elegance with modern simplicity. The single console basin adds grandeur to any bathroom, while the standard basin is perfect for family spaces. Or, if you're looking to add storage to a cloakroom, there's the Caversham vanity unit in four on-trend finishes.

You see, there's no such thing as 'just a basin'. Not in our collection.

## STORAGE

# *Mix, match, and make your own*

~

Our beautifully designed furniture collection, Caversham, can be mixed, matched, and made your own. Choose from fitted or freestanding pieces in a range of sizes and four different finishes, all of which can be colour matched with toilet seats and bath panels for a perfectly consistent feel.

Plan your space carefully to build in combinations of drawers and cupboards, which will transform your bathroom design and provide lots of useful spots to store your essentials. Coordinate with one of our five worktops and your favourite Heritage door handles to complete the look.

No matter the size or style of your space, we've something for you – so start experimenting.

## TRENDS

# *On the pulse of the latest fashions*

~

With the help of the experts on our Trends Panel, we're constantly on the pulse of the latest fashions. Be it colour trends, the next big metallic finish, or a bathroom style that's about to really take off, we pride ourselves on being the first to know. That way, we can make sure you're always ahead of the curve.

Our Limited Edition Rose Gold Collection is the perfect example, introduced in collaboration with our interior designers to fit the freshest interior trends. The collection is ideal for fashionable, glamorous spaces, and comprises everything from taps and showers to standpipes and toilet seat hinges.

So if you're wondering whether to brave a bigger, bolder style or a Limited Edition piece, trust us and take the plunge. We've done our homework, so you don't have to.

## ICONIC PIECES

*A timeless piece  
with gorgeous detailing*

~

With its gorgeous detailing and pretty vintage touches, the Victoria Double Console Basin is truly iconic. This timeless piece fits seamlessly into luxurious spaces, though it makes a stunning feature in any bathroom.

But the double console is just one piece of the Victoria range. This gorgeously period-inspired suite is defined by its romantic detailing, and is perfect for traditional bathrooms and classically styled properties. Choose from beautiful basins, high and low-level WCs, and options for smaller spaces too.

STATEMENT BATHING

*Sink into luxury*

You've never experienced a bath like Alderley. One of our newest pieces, this extraordinary double-ended, freestanding bath is finished with a textured mock croc effect, a sumptuous surface that simply begs to be touched. Visit your local showroom to do just that - a bath like this has to be seen to be believed.

LIMITED EDITIONS

## *Designed to capture the latest trends*

~

Looking for something really unique? You'll love our Limited Edition tap and shower collection. Each fashionable piece is designed in line with the latest interior trends, featuring original details such as midnight blue levers, lace gold inlays, and sophisticated touches of mother of pearl. For real standout, go for the stunning Hemsby range finished entirely in rose gold, available with a matching Abingdon washstand.

## INTERIOR DESIGN COLLABORATION

# *Helping you express your unique style*

~

To help you create a bathroom unlike any other, we collaborate with interior designers to delve into the bigger picture, crafting original and aspirational bathrooms that leave you itching to reimagine your own. We also use our experts' knowledge to design new ranges and Limited Edition products, allowing us to perfectly encapsulate the latest trends. So, when you work with Heritage, you'll always have absolute confidence in our design expertise.

And while we might not stock the paint, wallpapers, and other added touches that bring our bathrooms to life, we'll still help you find them. Because more than anything else, we believe in giving you the tools and inspiration you need to create a distinctively individual space.

Ready to get inspired? Head online. At [heritagebathrooms.com](https://heritagebathrooms.com), you'll find design planning tools, a blog full of beautiful ideas, and our Trends and Inspiration Guide, created with the help of interior designer Ali Munro.

## METALLIC-EFFECT BATHS

# *On-trend and here to stay*

“Wow”. Each time someone steps into a Heritage showroom and spots one of our freestanding metallic-effect acrylic baths, they react in just the same way. And it’s easy to see why: the three lustrous finishes – copper, steel and gold – exude grandeur, shimmering invitingly and bringing warmth and brightness to any room. If you’re searching for an opulent, feature piece for your bathroom, look no further. Our attention-grabbing metallics are on-trend and here to stay.

IT'S ALL IN THE DETAIL

## *Nothing is an afterthought*

~

Nothing is an afterthought at Heritage, and we search constantly for ways to make our products even better. Take our toilet seats, for example; we give them just as much attention as our suites, adding subtle touches that make them a carefully considered part of your bathroom.

We've designed our soft-close seats to be removable, so they're exceptionally easy to clean, and fitted them with durable, high-quality hinges and strengthening dowels. They're available in a range of finishes to match with our furniture and bath panels, and – as an extra detail for our standard-hinge WC seats – choose from fittings in chrome, vintage gold or rose gold to coordinate with our taps, showers and washstands. We really have thought of everything.

## CAST IRON BATHS

*Make bathing beautiful*

~

Our signature cast iron baths offer endless possibilities for making your bathroom your own. Whether you're looking for a totally immersive, double-ended bath or an elegant slipper, you'll find it at Heritage.

Heritage cast iron baths are designed to be customised, with a paintable exterior you can personalise and make your own. But it's not just what's on the outside that counts. The inner of every bath is sprinkled with two layers of Class AA enamel, then baked twice for top durability and stain resistance.

## SMALL BATHROOMS

# *Small space, big impact*

~

Our pieces work wonderfully in smaller bathrooms too; we even offer a baby version of our Oban and Buckingham freestanding baths, which fit snugly into more compact spaces. And with small-scale corner and baby basins, corner and wall hung WCs, you can apply your unique Heritage style across en suites and cloakrooms – not just your family bathroom.

INSPIRATION

## *Discover geometric cool*

~

Wynwood is inspired by the Art Deco movement, and takes its name from a super-cool region of Miami filled with chic hotels and waving palm trees. It's all slick lines, angles, and high-impact pieces; take the beautiful 800mm wide basin, which looks stunning paired with fashionable Somersby taps and an Abingdon chrome washstand.

With carefully chosen colours and textiles, it's easily the centrepiece of a luxurious, artsy space.

VERSATILE DESIGN

## *Make period styles your own*

~

If you love Art Deco styling you'll adore Granley Deco, which takes inspiration from the 1930s design trend. It's neat, angular, and seriously chic, made for bold styling and pops of colour.

But when it comes to your bathroom, you needn't stick to the period. While our suites are influenced by some of the most iconic historical styles, we've designed them to be versatile. If you have the space, plan in 'his and hers' basins to give Granley Deco a real chance to shine, and be intrepid with pattern, tiling, and placement to create a washroom that wows. A Heritage suite is truly whatever you make it.

DEVOTED TO DETAILS

## *Love the little things*

~

We're devoted to details, so when you visit your local showroom be sure to look closely. From the handles of our taps to the edges of our washstands, we've put love and attention into every carefully placed curve and finely polished glimmer. And when we say we've thought of everything, we truly mean everything; we even offer a choice of hinges for your toilet seat, allowing you to perfectly match colours and finishes right across your bathroom.

Hartlebury Taps p173.

## CHOICE AND FLEXIBILITY

*So much to  
choose from*

~

Our seven expertly curated, flexible suites are designed to give you as many options as possible. There's so much variety in every collection; designs range from intricate classic styles to clean silhouettes with contemporary lines.

And once you've picked your favourite style there's even more to explore, with different heights, fittings, colours, and furniture combinations to create your ideal look. Even the type of WC you choose can make a huge difference; go for one of our high-level cisterns for a high-impact finish.

## SUITES

Create a bathroom that flows beautifully with our gorgeous collection of suites. Packaged together with all the essentials that you need to start a bathroom - a basin, WC and a coordinating fitted bath - Heritage suites give you a great starting point to be as creative as you like.

**Top left:** Dorchester suite - Page 70-73 **Top right:** Victoria suite - Page 86-87  
**Bottom left:** Granley Deco suite - Page 82 **Bottom right:** Claverton suite - Page 66

**THE LOOK** We've created a stunning range of suites in a choice of beautiful styles from period pieces like Granley and Dorchester, through to timeless classics like Blenheim and Claverton. Start with a standard basin and pedestal, WC pan and cistern and fitted bath, and swap in freestanding statement baths, vanity units and more to create a bathroom that is as individual as you are.

# BUYING GUIDE

## Essential suite

All our suites provide you with a choice of basin and WC, along with matching fitted bath. Of course, you can also choose to upgrade from a basic suite; swapping a pedestal for a vanity unit or wash stand, or a fitted bath for a freestanding acrylic or cast iron to create a bathroom that's distinctively individual to you.

### CHOOSE YOUR BASIN

We offer seven different basin styles, all available with matching WCs and fitted baths. If you prefer period styling, then take a look at Granley, Dorchester or Victoria. For a classic look, opt for Blenheim, Wynwood or Claverton. With so many different types of basins to choose from, you can match your style, budget and space perfectly.

#### 1. Standard

Our most popular basin type that can be teamed with a pedestal, freestanding vanity unit or a wash stand depending on the look you want.

#### 2. Semi-recessed

This basin is shaped to sit on our fitted furniture when you want a neat finish with a storage solution.

#### 3. Corner, Baby & Cloakroom

Designed for the smallest spaces, making them perfect for an en-suite or cloakroom, these basins can be wall hung or used with a pedestal. You can also team semi-recessed cloakroom basins with a fitted vanity unit for stylish and space saving storage.

#### 4. Console

Hugely popular for a boutique feel, these basins need to be paired with supporting console legs. Choose from our stylish options within our Victoria and Blenheim suites.

### Tap choices

Our basins are available with 1, 2 or 3 pre-punched tap holes. The number of tap holes will obviously determine your choice of taps. Consider whether you want a single basin mixer, pillar taps or a stylish three tap hole mixer. See pages 161-189 for our taps range.

### Down the plug hole

Most of our taps include a waste but if not, we do sell them separately (see p198-199). If your basin is exposed underneath the bowl (e.g. a console or wall hung basin), you may also need a bottle trap.

## CHOOSE YOUR WC

A WC has two parts; the cistern at the top holds water for flushing and is secured to the wall or sits flush with the pan. You'll need both to create a complete WC set.

Choose from five options:

### 3. High level

These cisterns sit high up on your wall for a traditional look, with a long chain pull rather than a cistern lever. You'll need a flush pack (which includes the connecting pipes) to complete your WC.

### 4. Back to wall

This conceals the cistern behind either a stud wall or within furniture and you operate the flush either by a button on the wall or within the furniture unit. If you are considering a back to wall pan, then you will need to purchase it with a concealed cistern.

### 5. Wall hung

A great solution for small spaces as they sit off the floor for easy cleaning and lead the eye upwards. Wall hung pans will need to be purchased with a wall hung frame and concealed cistern that sits behind the wall.

## DON'T FORGET!

### Levers and seats

Complete your WC with a cistern lever from our selection. Our range of WC seats are available in a choice of colours and can be matched to our range of furniture and worktops. Available with chrome, vintage gold or rose gold hinges, with standard or soft close options.

### Did you know?

All of our fitted acrylic baths are tested with a lustre meter before they reach you to ensure they have our unique gleaming finish.

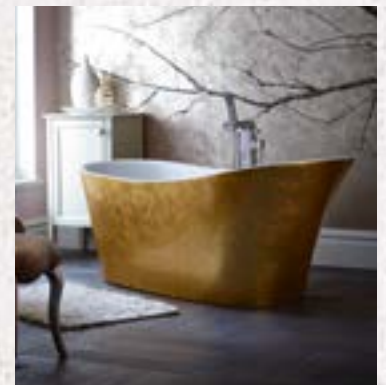

## CHOOSE YOUR BATH

We've teamed all our suites with a specific fitted bath for ease, but you can mix and match across suites if there's another style, shape or size you like more (see p102-119 for the full range).

Our fitted baths are all made from high quality acrylic and feature Solid Skin technology which makes the acrylic more rigid and durable and keeps water warmer for longer. If you're adding a shower over your bath, you may also need a bath screen see p113).

### Upgrade to a freestanding bath

Freestanding baths are great for larger bathrooms and will add a style statement. At Heritage, we have more freestanding baths than anyone else in a choice of cast iron or acrylic.

## BLENHEIM™

A classic, elegantly designed suite. Choose between 1, 2 or 3 taphole basins to pair with a pedestal, vanity unit or our stylish washstands in chrome or rose gold. And now you can discover our striking console basin with beautiful tapered legs.

## CAST IRON BATHS

Our elegant cast iron baths with grade AA white ripple enamel and traditional ball and claw feet, can be painted any colour. Because you'll love our baths forever, each one comes with a lifetime guarantee.

LIFETIME  
GUARANTEE

## PAINT YOUR BATH

All of our freestanding cast iron baths will come to you hand finished, sanded down and pre-primed with an undercoat already applied. The undercoat is dark grey but it's up to you to choose to paint it in a colour that you like.

This is where you can really express your personality.

Paint it a subtle colour to match the serene mood of your bathing space or go wild with a pop of colour or add pattern with a stencil.

### TAKE NOTE...

We strongly advise using an acrylic, polyurethane or epoxy-based paint for longevity. There are some great paints and amazing colours out there; try creating a mood board from interiors mags and visit your local paint shop for inspiration.

## STANDPIPES AND SHROUDS

**If you are choosing to use bath taps or a bath  
shower mixer on your bath, you'll need either  
standpipes or shrouds to cover your pipework.**

For baths with existing tap holes (either pre-drilled or drilled  
by your plumber), choose shrouds, as shown in this image.

For baths without tap holes, then choose standpipes.

Both can be cut to size to fit your bath height.

Our bath panel sizes are to suit our fitted baths. Some variation in size may occur due to the materials used and manufacturing tolerances. Our bath panels are also supplied with a plinth to accommodate varying heights and installations.

Heritage acrylic panels are manufactured from high impact white polymer for a sturdy, structural finish. The front and end panels interlock to provide a neat join. The 800mm end panel should be trimmed to size for 700mm and 750mm baths. Fixed height 515mm.

## FURNITURE

Our exclusive bathroom furniture is resiliently beautiful, and is available in space saving fitted or statement freestanding options. Our furniture arrives pre-assembled and verified by a spectrophotometer for colour coordination. Create a bespoke feel with worktop and handle options to make it perfectly personal.

**Bottom right:** Caversham decorative finishing panel in White Ash - Page 149

**THE LOOK** Approach your bathroom like any other interior by creating a customised layout. Mix on-trend coloured finishes for a distinctive look with freestanding accent pieces or go fitted for maximum storage.

**THE BUILD** All our freestanding furniture is designed and manufactured in Britain and made using timber from sustainably managed forests.

**THE TECH** High spec extras like soft close doors create a boutique hotel feel. Adjustable legs on our fitted furniture also ensure perfect lines on uneven floors. The glass in our mirrors and doors is EN certified and CE marked, and furniture edges are rounded for safety.

**WHY?** Heritage can help you create an effortlessly pulled together look with coordinating bath panels and WC seats in your preferred finish.

## GOOD TO KNOW

**You might find it hard to believe, but no two people see exactly the same colour.**

So to make sure our furniture hues are a perfect match, we use a spectrophotometer. Capable of distinguishing any conceivable colour under different lighting conditions, it ensures absolute consistency at every stage of production.

## WASHSTANDS

Designed by our bathroom experts here in the UK, Blenheim, Dorchester, Victoria, Wynwood and the Claverton, now offer a washstand option to lend a boutique hotel look to your suite. All have a high shine chrome finish, with Blenheim also available in rose gold to help you create one of the year's hottest bathroom trends.

Rose gold washstand - Page 154, Hemsby rose gold taps - Page 177

**THE LOOK** Our designers reflect the move away from pedestals towards the trend for dressing rooms with a vintage feel. Add optional glass shelves or towel rails to your matching or standalone washstand for a stylish bespoke twist.

**THE BUILD** All washstands are made to rigorous standards from high quality polished brass giving a smooth finish with no bubbles or ragged edges.

**THE TECH** For shelves quality and safety is paramount so it's EN 12150 certified glass every time. Likewise the brass is chrome plated to BSEN249 for consistent high quality British Standards.

**WHY?** Whichever suite or whichever washstand you choose, your Heritage bathroom is designed to last with our reassuring 5 year guarantee.

## TAPS AND SHOWERS

Imagine your stylish bathroom, created from one of our fabulous seven suites then finished with our beautiful brassware. We've brought together a collection of the most sumptuous taps and showers, including a set of Limited Edition show stoppers.

All of our showers are pre-set to a safe temperature and designed to work with all UK water systems and our taps operate on low pressure. All of our brassware selections work perfectly together or can be combined to create your style, your way.

**CARING FOR YOUR BRASSWARE**

Our special finishes, including Vintage Gold and Rose Gold require additional care and attention to stay looking beautiful. We recommend that all our brassware finishes are cleaned regularly using a damp cloth with water. Should you experience tarnishing, we can also recommend the use of Silvo as often as required to preserve the finish and act as a tarnish guard.

## EXPLAINING WATER EFFICIENCY

There are over 60 million people living in the UK, using on average 150 litres of water per day for washing, cooking and drinking. Improvements in lifestyle and new technologies within the domestic environment mean we use 55% more water than we did 25 years ago, with half of this being used within the bathroom environment.

As climate change takes a greater hold on the environment we understand it is essential for us all to use water wisely. At Heritage we appreciate how important it is to save water and that's why we have designed selected products to optimise water usage in the bathroom.

You can now tell how much water a product uses in normal domestic conditions by looking for the Water Label. A green indicator flag shows that a product uses the least amount of water whereas a red flag indicates that a product uses more water; however this gives you a greater flow from your taps and showers for a faster filling basin or bath and more invigorating shower.

You can find a complete explanation of the European Water Label and how it works at [www.europeanwaterlabel.eu](http://www.europeanwaterlabel.eu)

Find Water Label information for our products at [www.heritagebathrooms.com](http://www.heritagebathrooms.com)

## BATHS

### Acrylic baths

Reflectivity of materials may vary, in some light conditions the white may look a little different.

Heritage bath panels are designed to go with Heritage baths, a 1700mm panel for a 1700mm bath etc.

White plastic bath panels are a fixed height and when used in conjunction with one of our baths, allows the bath trap to be installed above the finished floor in most cases.

### Cast iron baths

Cast iron baths are still made in the traditional way which includes a degree of surface ripple, dimples and minuscule black specks in the interior. This is all part of the character of a cast iron bath giving a feeling of uniqueness in your bathroom.

The exterior of our cast iron baths come smooth and pre-primed ready to paint. This isn't the finished article though and may suffer minor wear and tear en route to you. It will be instantly restored when you paint it in your chosen colour.

## BASINS, WCs & BIDETS

Each piece of sanitaryware is individually made which means dimensions given are always 'approximate' within standard industry tolerances.

If precise measurements are required then you must measure the actual pieces when they are delivered and plan your bathroom around them.

Every effort is made to ensure our sanitaryware is straight and level, and our standards are significantly higher than those set out in the current British Standards. However, when used on furniture, for example, there will be situations where an inexact basin will meet a perfectly straight worktop and sealant will need to be applied to fill any inconsistencies, ensuring a stable fit and sealing the furniture from water ingress.

The lifetime guarantee on sanitaryware extends to the ceramic pieces only. The cistern fittings are guaranteed for 5 years.

The inlet on all our ceramic cisterns is on the bottom right hand side, unless stated otherwise.

### Heritage logo

The word Heritage or the letters hb are used as a hallmark to denote a genuine Heritage product.

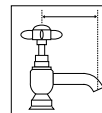

## TAPS & SHOWER VALVES

Heritage taps are designed to be compatible with Heritage sanitaryware and baths. A 1 taphole basin mixer will be suitable for any 1 taphole basin, the few exceptions to this rule will be highlighted in the directory section.

The majority of Heritage taps and shower valves have been engineered to operate on low pressure making them compatible with all UK plumbing systems. The minimum operating pressure for each tap and shower valve is stated in the directory for you to confirm compatibility with your installer.

### Measuring tap spout projections

Spout projection measurements refer to the dimension from the centre of the body to the centre of the spout.

## BRASSWARE FINISHES

Chrome is an extremely durable plated finish which is applied to a variety of fittings in a consistent manner and features a 5 year guarantee.

Special finishes, including Vintage Gold and Rose Gold, are more delicate so when applied to high use fittings such as taps and showers, or a plated finish we use on shower kits, hoses and accessories, feature a 3 year guarantee only.

Close inspection may show some colour variation which is normally acceptable given the relative distance between individual fittings when installed.

All metal finishes must be correctly cleaned using non-corrosive or abrasive cleaning products. We recommend using a damp cloth and cleaning these surfaces regularly. On special finishes a silver polish and tarnish guard can be used to offer additional protection.

## MIRRORS

The application of the colour finish on the mirrors may lead to some slight variation in consistency.

Never clean your mirror surface with anything abrasive.

We recommend using just glass cleaner and a soft cloth on the glass and a dry cloth only on the frame.

**DO NOT** use any form of cleaning products on the mirror surround. Certain mirror surrounds are hand painted with a delicate silver or gold leaf finish so we would recommend using nothing more than a fine duster.

At Heritage Bathrooms it is our policy to strive to continuously improve the quality of our goods, as a result our products will also be subject to changes in design, materials, components and finishes. All goods are subject to such variations in size, colour and finish and are within normally accepted manufacturing tolerances. Also, as products are subject to changes this may affect the qualification for various product approvals and so we will not be held responsible for any reliance placed on approval references within drawings, descriptive matter, price lists, catalogues, brochures, websites, and other promotional material unless it has been directly confirmed by us in writing at the time the products are ordered.

### Trade Mark and Data Protection

Our trade mark HERITAGE is registered in the United Kingdom and throughout Europe. You will not use our trade mark, or any of the range or product names or images of our products without approval.

### European Water Label Scheme

Products within the Heritage range are accredited by the European Water Label Scheme therefore meeting industry standards for water efficiency. For a full list of accredited Heritage products and for more information please visit [www.europeanwaterlabel.eu](http://www.europeanwaterlabel.eu)

## FURNITURE

**Our Caversham fitted furniture** is made with a real wood veneer (a thin layer of real wood) bonded on to mdf or chipboard.

### Our Caversham freestanding furniture

is made using real wood and as such, every individual piece features a unique grain.

**WC seats** and hinges must be regularly maintained and correctly cleaned using non-corrosive or abrasive cleaning products.

**Worktops** are supplied in varying lengths. Please measure and select carefully. Please also take care when cutting worktops; worktops are not made from solid wood and by cutting them you will expose the edge. We do not supply edging strips.

**Wall mounted furniture** in the Caversham range is not freestanding and is designed to be wall-mounted.

## FURNITURE FINISHES

Our furniture is available in a choice of finishes. Oak is a natural finish and Walnut is a stained wood finish while White Ash, Oyster, Graphite and Dove Grey are all hand painted. While we endeavour to ensure consistency, you may see some slight variation in the colour. You may also notice some variation in the grain of the wood.

Our coloured finish furniture has the following Pantone references: Graphite 433U, Cool Gray 1U. Our RAL references are 7047 for Dove Grey and 7016 for Graphite.

### Terms and conditions of sale

Heritage do not sell direct to the consumer and as such your terms and conditions of sale are with the retailer where you purchased our products.

Heritage Bathrooms reserve the right to amend retail prices at any time. We recommend you discuss pricing with your chosen specialist supplier.

All prices in this brochure are recommended retail prices and include VAT at 20%. In the event of a change to the VAT rate, prices will change accordingly.

### Printing accuracy

Whilst every effort is made to ensure printing accuracy throughout this brochure and on our website, all images, drawings, descriptions, prices and promotional material are intended as a guide only and colour reproduction is difficult. We strive for constant improvement so products may be subject to slight variations in line with manufacturing tolerances. We recommend you view products in a showroom prior to purchase. As such we will not be held responsible for any reliance placed on approval of the above unless it has been directly confirmed by us in writing at the time the products are ordered.

### Deliveries

We monitor our stock levels to ensure that all products are in stock. If for any reason the product ordered is not in stock then we will inform the retailer at the time of receipt so alternative arrangements can be made. 24 hour deliveries are made to the retailer and is dependent on the time of order.

A number of stores will receive consolidated orders, operate their own additional inspection procedures and/or receive goods into a central warehouse requiring onward distribution to multiple stores. These added value practices will inevitably impact on delivery lead times.

We strongly recommend that you thoroughly inspect your delivery before booking installation time and ensure all products are on site before beginning demolition of your old bathroom.

### Measurements and design specifications

All measurements are in millimetres and are for guidance only, some variation may occur. Heritage Bathrooms pursues a policy of continuing improvement in design and performance of its products and so reserves the right to change specifications without prior notice.

## HERITAGE BATHROOMS PRODUCT GUARANTEE

At Heritage Bathrooms, we want to make things as easy as possible for our customers. That's why we design products that are easy to fit and use, and that are quality tested to make sure they won't let you down.

It's also why we offer solid guarantees, effective from the date of purchase, so that in the unlikely event of something going wrong, you have the peace of mind that the problem will be sorted easily.

All of our products are covered by a guarantee. Most include both parts and labour (so we'll send an engineer to fix the problem as part of the warranty). Please note that guarantees are only valid with proof of purchase.

Our guarantees apply to products in domestic use. Any products in commercial use carry a guarantee of 1 year. See [www.heritagebathrooms.com/warranty](http://www.heritagebathrooms.com/warranty) for more information.

### OUR GUARANTEES ARE AS FOLLOWS:
